

Accurate

Laser Cutting

Servicing the UK's flange and bracket requirements!

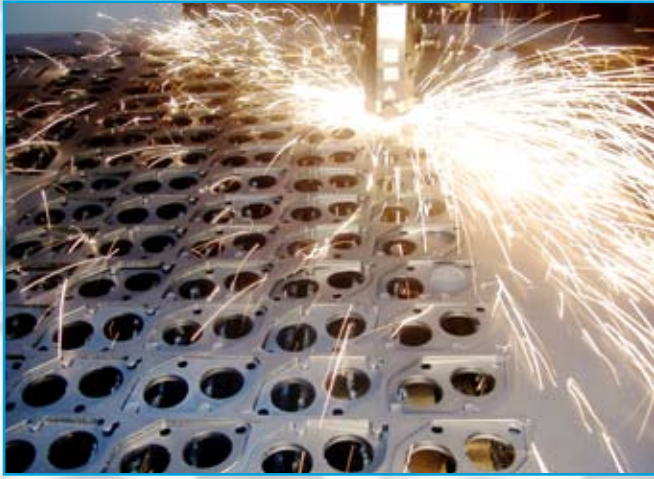

At Accurate Laser Cutting we specialise in exhaust flange and bracket manufacture. Our seamless 24-hour-a-day operation means you get all the benefits...

- No expensive tooling costs.
- No tooling means reduced lead times for your prototypes and production orders.
- No tooling means laser cutting is ideal for small and medium batch manufacture.
- No tooling means any shape can be easily profiled.
- Our CAD/CAM team can easily recreate your flange from a sketch or even a sample.
- Secondary operations such as turning, milling and chamfering means you single source.
- No minimum order charge means even a small batch of 25 flanges is economical.
- Laser cutting produces high quality parts giving you a professional advantage.
- High-speed cutting technology means low component prices.
- True specialisation means we can offer expert advice backed up with a service that is second to none.

To save on all your flanges and brackets contact us now!

Secondary operations

At Accurate Laser Cutting we don't just laser cut flanges and brackets, we offer a whole range of secondary operations, including folding, drilling, tapping, milling, turning etc. This gives you the advantage of truly single sourcing all of your laser cut components, giving you peace of mind that when you receive your goods from us you can simply jig and weld them. It's as simple as that!

Your top quality components will be delivered on time every time

From quotation to delivery, service, quality and speed is the name of our game. We aim to get back to you within four hours of your quotation request and, once you have ordered your components from us, we **GUARANTEE** that within 24 hours we have already started the manufacturing process. This dramatically reduces lead times, giving you the advantage that your top-quality components will be delivered to you at the earliest possible opportunity.

Capacity at a glance

We are at the forefront of technology and are fully committed to investing in the very latest, state-of-the-art manufacturing machinery. In the last eighteen months, Accurate Laser Cutting has invested over £450,000 on laser cutting and folding equipment - all this, backed up with the latest CAD/CAM software operated by our expert team, gives you the knowledge that we are the leader in our field. With this continuing investment, you can be assured that you will always have access to the very latest technology.

Committed to customer care

Our job isn't finished when we deliver your goods, our aim is to delight you with our ongoing commitment to customer care and service. Our skilled and dedicated staff are always happy to help with any aspect of our services and are able to advise and assist you with design and manufacturing techniques.

Our friendly but professional approach will give you confidence that, when it comes to manufacturing your flanges and brackets, Accurate Laser Cutting Ltd is the only name you need.
